PROFILE

Application Developer, graduated in 2025 from HELMo (Haute Ecole Libre Mosane) in Application Development.

I am structured, meticulous, and adaptable to various professional environments. Passionate about technology and software development, I am committed to delivering innovative solutions while collaborating effectively with project teams.

I aim to continue tackling technical challenges and contributing to impactful and tangible projects.

EDUCATION / EXPERIENCE

Full Stack Developer — Feb. - May 2025
Esia-sa (Final Year Internship)

Developed and ported a network monitoring iOS application in React (push notifications, access management, and multi-OS compatibility). Added communication features and error management through a PHP/PostgreSQL API.

Bachelor's in Application Development — 2022 - 2025
Haute Ecole Libre Mosane - Liège

Member of the **GRICOR-QCM** project in the SALTO program.
Developed software to assist HELMo teachers in grading evaluations with open-ended questions and MCQs..

Bachelor's in Civil Engineering — 2020 - 2022
University of Liège

Gained programming skills in Python and C, sparking my interest in software development.

Secondary Education — 2014 - 2020
Athénée Royal de Huy

General education with scientific training and preparation for the civil engineering entrance exam.

Student Job - LEM Interim — August 2022
EurECO - European Engineer Consultant Office sprl
Office Assistant / Administrative Support
